PROFESSIONAL SUMMARY

Aspiring software engineer with a passion for developing scalable, full-stack solutions. Experienced in object-oriented programming, web development, and cloud computing, with a strong foundation in DevOps practices, quality engineering, and performance optimization. Skilled in building responsive applications using the MERN stack and Django, with strong problem-solving, project management, and collaboration abilities.

EDUCATION

KL University **2022 – 2026**
Bachelor of Technology in Computer Science and Engineering – CGPA: 9.25

Sri Chaitanya College **2020 – 2022**
Intermediate

St. John's School **2019 – 2020**
Matriculation (SSC)

TECHNICAL SKILLS

Programming Languages: Python, Java
Web Development: React.js, Django, Spring Boot, Django REST Framework, HTML5, CSS3
Database Management: MySQL, MongoDB
Cloud Computing: Amazon Web Services (AWS), Microsoft Azure
Version Control & Tools: Git, GitHub, VS Code, Eclipse IDE, PyCharm
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP)

PROJECTS

Academic Student Course Registration System *Python, Django, PostgreSQL, HTML, CSS*

- Built a full-stack web application for student course registration and enrollment management.
- Developed RESTful APIs using Django following the MVC design pattern for scalable backend logic.
- Designed a normalized PostgreSQL database schema for efficient data storage and retrieval.
- Implemented secure user authentication to protect student records and platform access.

Web Application for Farmers to Promote Rural Entrepreneurship *Spring Boot, React.js, MySQL, CSS*

- Developed a full-stack platform enabling farmers to showcase and sell products directly to buyers.
- Built RESTful APIs using Spring Boot following a layered Controller-Service-Repository architecture.
- Designed a MySQL database schema to manage product listings, orders, and transaction records.
- Implemented a responsive React.js interface supporting online transactions and order management.

ACHIEVEMENTS

- Solved 200+ Data Structures & Algorithms problems on LeetCode using Python and Java.
- Participated in 4+ Hackathons, demonstrating strong problem-solving, analytical thinking, and teamwork skills.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Red Hat Certified Enterprise Application Developer
- Wipro TalentNext Java Full Stack
